

ROBOT PUPPET

Build your own robot!
Either use our template
or create your own!

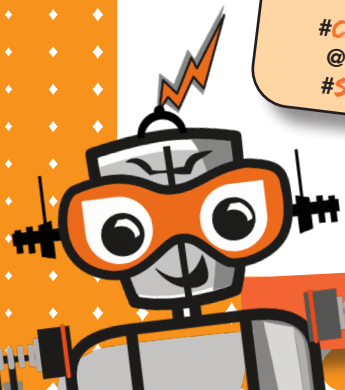

Here's a guide to see how
to put him together. The
separate elements are on the
next page for you to print,
colour in and cut out - take
care when using scissors!

Place the pieces onto card
board to cut out to make
sure it's sturdy. Get an adult
to help to cut through the
cardboard.

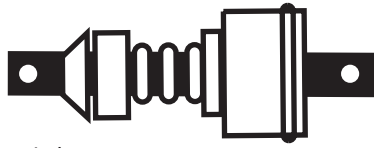

Use split pins to connect
the joints
